Sustainable Solutions

We are committed to creating the best possible products for our customer needs and the environment as a whole. We believe that starts with understanding what options are out there. K N K sustainable solutions offers a variety of biodegradable and recyclable packaging solutions to our customers, both in quick service restaurant, bakery, cafe chain & food processing channel.

With the strong innovation capability, we have launched the freezing to heating pulp technology, it's suitable for freezing to high heat application. K N K pulp product is designed for maximum performance in wet/dry food menu, freezer storage, heating in microwave and oven.

The pulp containers come with a transparent and recycled PET or PP lid that ensures your creations remain visible at all times. Additionally we have a pulp lid offering that can provide an entirely biodegradable packaging solution. This product is ideal for take-away solutions.
